### A Word to Republicans.

The hope of the party lies in the expansion of a stalwart Republican press. The Repubcan scho reads or otherwise helps to support a Democratic paper to the exclusion of one of his own party newspapers is untrue to the Republican cause.

Unanimously subscribed to by the National nsblieum League

J. S. CLARKSON, President. A. B. HUMPHREY, Secretary.

THE LEDGER has no disposition to kick Chairman CARTER. He probably did the very best he knew how.

THE able editor of The Journal down at Newport ought to be patient. He will find out that HALLAM's program has more meat in it than he thinks.

TRE so-called Republican who votes the Democratic ticket should go the whole hog hereafter, so that he will not bother Republicans with foolish questions as to "how it all happened."

Some of our Democratic friends are claiming that the like never happened before. We refer them to 1840, when HARRISON received 234 Electoral votes and Van Buren 60-nearly four to one.

THE editor of The Journal at Newport knows all about it, for he says "there'll be no armies of Pinkertons to enforce on employes a scale of wages not commensurate with their toil," referring to the Homestead incident. Well, the Democratic Congressional Committee thought these workmen were pretty well paid, for Mr. BOATNER remarked during the investigation that the Homestead men were paid the highest wages that he ever heard of, or words to that effect. By the way, what has become of the report of that Committee, and why wasn't it submitted to the country before the election?

THE Republican party will live because it represents principles that are immortal, and because the right is certain to triumph in the

end. And it will live as the Republi-The Republican Party. can party. Republicans are proud of their past, insepera-

bly linked, as it is, with the story of the Nation's successful struggle for life, and with the extinction of human slavery on the American continent.

The past of the Democracy is a record of treason, of cowardice and incapacity. It is a record of plotting against the Union, of war against the Union, and of the advocacy and support of a system which treated human beings ne beasts of the field. It is a record of hostility to every good and patriotic policy, including the Protection of serican labor. Of such a record the nocracy might well be ashamed, and it is not strange that the party has al- raised \$600 and secured the prettiest lot ways been willing to seek shelter under in town for a church. The Republican party, says The New Fork Press, cannot and should not live on the record it has made. But it can rightfully refer to the past as a guarantee of the future. It will continue to be the party of progress, the party of tion, the party of education. It will continue to strive for the maintese of American honor abroad and for ican Industrial independence at a It will continue to represent by

IT was all right for Mr. CLEVELAND, on the eve of leaving the Presidency four years ago, to extend the operations of the classified civil service; but the announcement that President Harrison intends extending it to the Bureau of Engraving and Printing and the Government Printing Office meets with Democratic opposition.

A DEMOCRATIC newspaper of New York City, which claims the credit for the success of the CLEVELAND Free-

trade ticket, invites the present Republican Senate to join Republicans Will Stand Aloof, with the Democratic House in passing "important meas-

ures on Tariff reform" at the coming session of Congress. This suggestion, if carried out, will involve the Republican party in responsibility for Democratic measures.

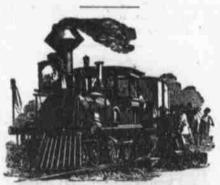

. Their invitation will not be accepted. The Democrats will enter into possession of the White House and the Capitol on the Fourth of March next. They must enact their own legislation, without Republican countenance or assistance. They must show what they have meant by their incendiary appeals to class animosity. They must incur all the odium that will follow their attacks on the industries of a great Nation, and their schemes to reduce the wages of American labor.

When the time shall come to render an account of their blunders and crimes, they will not be able to point to the Republican party as an assistant. They will have to endure the obloquy they deserve alone.

HARRISON'S DEFEAT. The President Did Rot Favor a High

WASHINGTON, Nov. 15.—President Harrison, discussing the defeat of the

republicans, says: "It was due mainly to the position of the party on the tariff question. The republicans had forced this issue to an extreme, which evidently did not meet with the approval of the

"There was a strong belief that the Force bill issue kept the solid south within the old lines, but it did more than that, for it brought to the support of the democratic ticket many votes in the north."

What he wanted them to do, the president said, and what he endeavored to impress upon them, was the absolute necessity of keeping the republican states in line and carrying New York.

He had realized for some time past that the drift of public sentiment was against him and his party, and it was this that led him to force this advice upon the party leaders. The disregard of this advice had much to do with the result of last Tuesday. The president realized, before any of the election returns came in Tuesday, that he was a

defeated man. "The verdict last Tuesday, the president says, "could be construed in but one way. It meant a condemnation of the extreme high tariff policy of the republicans. The inevitable result, if the party was to hope for a renewal of power, was a modification of its position, but not a denunciation altogether of the protective tariff policy, which has been the keynote of every republican campaign for many years past."

Terrible Crimes Revealed in New South Wales-Bables Hearts Pierced With Nec-

SYDNEY, N. S. W., Nov. 15 .- The police are making close searches of all the premises that have been occupied by the Makins, the family of baby farmers now under arrest here. At MacDonald and Red Fern, two suburbs of Sydney, where the family have lived, the bodies of thirteen infants were found, and Monday a search made of the back yard of a house at Chippendale, once occupied by the Makins resulted in the discovery of two more bodies. The theory of the doctors is that the babies were killed by having their hearts or spines pierced with needles.
